Indirect Competition:

In the market, we face three types of competitors:

- **Delivery Apps** with no cargo & fleet division.
- **Cargo Operators** with heavy & Medium jets.
- **Freight companies** with trucks & heavy aircrafts

Our Advantage:

SGN operational characteristics provide a lower trip cost by connecting through secondary bases while skipping inner-city traffic, which will amount to millions of dollars in savings over the next decade.

SGN locations & fleet selection provide a unique combination of advantages that are unmatched by competitors.

Operation Center:

 **SGN Air** is based at 4827 Old National HWY, 2208, College Park, GA-30337

Forecast

The 2027 operational year in this plan is fiscal year 7. We are projecting sales of **\$550,000 USD** with a pre-tax profit of **30%**.

This assumes we serve **3,000** customers per annum with an average trip cost of \$183. *We will exceed that goal!*

Satisfied Customers: **4,000** (*growing daily*).

Our team members will draw minimal salary so we can reinvest profits into growing the business.

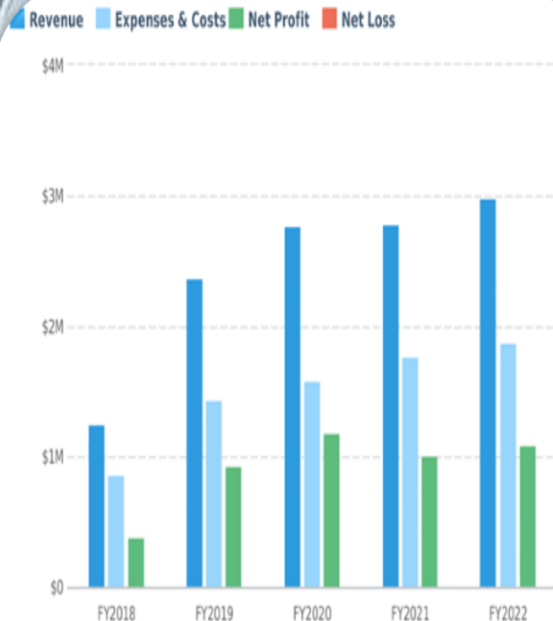

Leasing, wages & fuel are our biggest expenses, followed by a smaller allotment for marketing, maintenance, insurance, tax, and parts.

Should we provide same-day transportation services, our earning potential will increase substantially.

For now, though, we are focused on making our same-day logistics a great success.

Financial highlights

Funding Required

SGN needs **\$100K** to develop the organization.

Funding will be used to lease vehicles, parts, marketing, Insurance, Office space, licensing, and a cash reserve as we ramp up the operation.

After the seventh year of operation, we expect to trim expenses as efficiency, experience, and knowledge work together.
